WRECK OF TITANIC
SHOWN AT THE DIXIE

More Than Two Thousand Persons Saw the Great Film During the Afternoon and Evening.

The special program at the Dixie Theatre which was advertised in The Eagle yesterday afternoon brought out a record breaking crowd. The theatre was filled to its utmost capacity early in the evening and all who arrived a little late had to wait on the outside until a part of the crowd came out, thereby making room inside the theatre. This was kept up until 11 o'clock, and during the afternoon and evening the Dixie showed to more than two thousand persons.

The "Titanic" film was great, giving a fine view of the giant ship and her passengers as she left England, also of her master, Captain Smith. The views of the icebergs, the rescue ship Carpathia, and the rescued passengers were also greatly enjoyed. One of the owners of the film, who put it on in this city by special arrangement, announced the various features as the film progressed and this added very materially to the interest. Of course it is beyond the power of man to show the final chapter in the wreck and sinking of the Titanic, but the film shown here last night brings one as near face to face with the great ocean tragedy as it is possible for human ingenuity to make it.

Moving picture shows are doing a great work in an educational way, and it can not be gainsaid but that they are bringing the world with its wonders to our very feet.

Both the shows of this city are giving the people of Bryan the very best to be had.

Charles Adams arrived today from Yzbal, Sonora, Mexico, where he is now permanently located. He will spend some time in Bryan, a guest of relatives.
